

Tailgate Liner

Woodbridge Tailgate Liners feature rugged yet lightweight High-Density Polyethylene (HDPE) construction in a pebble-grained, anti-skid texture. Ready to handle the rigors of heavy everyday use, Tailgate Liners come in a black finish that hides dirt and wear.

For enhanced end-user safety, Tailgate Liners feature an anti-static film to prevent electrical charge buildup that could result in static discharge.

Applications

- + Exterior systems

Advantages

- + Tough, proven HDPE material features a pebbled, anti-skid texture and long-lasting durability
- + Anti-static film prevents electrical charge buildup that could result in static discharge
